EARLY INTERVENTION FOR THE DEVELOPMENT OF THE CHILD AND THEIR FAMILY AN INTERSECTORAL PERSPECTIVE

The conference aims to create a platform for discussion, exchange of knowledge, and best practices related to **early support for children's development from an intersectoral perspective**. A central aspect of interdisciplinary work is tailoring support strategies to the unique needs of each child and their family. Proper communication and cooperation between specialists from various sectors allow for a holistic approach to early intervention for children's development and support for their families, considering educational, social, and emotional requirements.

Key topics of the conference:

- **Family-centered model:** Discussion on the importance of the family in the early child development support context.
- **Cross-sectoral approach:** Presentation of strategies for creating holistic programs supporting children's development.
- **Challenges and successes:** Analysis of practical examples and case studies regarding the implementation of early support interventions.

Benefits for participants:

- **Current knowledge:** obtaining the newest trends and innovations in early support for children's development.
- **Networking:** the opportunity to establish contacts with international experts and exchange experiences,
- **Workshops and presentations:** participation in inspiring workshops and sessions by recognized specialists in various fields.

Program Committee:

prof. Robin McWilliam
dr hab. Dorota Podgórska-Jachnik
dr hab. Anna Prokopiak
prof. dr hab. Małgorzata Sekułowicz
prof. UG, dr hab. Edyta Widawska
